

Thesis writing

“Does thesis writing make you stressful and challenging?”

We are here to support you

Adhyeta International Announces **Thesis/Dissertation (PhD, Mphil, Masters) Writing** **Workshop**

Introduction:

Most of the time students will have a problem to go ahead for writing thesis/dissertation due to lack of proper guidance and systematic approach of universities and colleges. This situation has caused them pressure and dilemma whether to complete their academic degree and eventually they remain without academic degree. Several studies have indicated that only minimum percentage of students will complete their higher level academic degree. There is a scenario that most of the students can easily pass all the subjects of the academic course but when there is a time to write and submit thesis they will face problems in selecting topic, defending proposal, preparing questionnaire/designing tools, data mining and analysis, and ensuring academic writing after gathering all data. Thus, to ease all these 4-step problems and facilitate the students of Masters, Mphil and PhD, Adhyeta International (AI), Nepal is offering a workshop on “Thesis/Dissertation Writing”.

This workshop is targeted to the students of PhD, Mphil and Masters who wish to get the academic degree within their academic period without any confusion and dilemma. To ease the thesis writing process from topic selection to final thesis defense, the workshop is divided into four modules and each of the modules' content will be covered in a week long rigorous ideas and exercises. The entire modules will be led by Prof. Dr. Mana Prasad Wagley.

Course Modules:

Module I: Topic Selection and proposal design (1st Week)

Module 2: Preparing questionnaire/guiding questions and tools finalization (2nd Week)

Module 3: Data collection, mining and analysis (3rd Week)

Module 4: Academic Writing/ Thesis Defense (4th Week)

The entire modules will be covered in one month period starts from **July 3, 2019**. Each module will be conducted in each week. The workshop will be fully IT based.

The workshop consists of a structured talk with several break-out sessions. There will be plenty of opportunity to ask questions. Students are asked to bring their own laptops along with their own thesis idea.

Workshop Objective:

- To facilitate and ease the academic thesis writing process from topic selection to final thesis defense for the students of Phd, Mphil and Masters of any streams.
